Lakeport Plank Flint

Compass HB marine flooring combines PVC and Olefin yarns to deliver a unique blend of style, comfort, and performance. Its hybrid woven construction pairs the strength and durability of PVC with the rich design, depth, and softness of Olefin. These fibers are built to resist degradation, mold, mildew, and stains—making maintenance simple and worry-free. On the underside, a fused urethane foam backing adds cushion and comfort underfoot. Built for long-term performance in tough marine conditions, Compass HB is designed to look great and perform even better for years to come.

STANDARD OPTION

Fusion Dark Grey

Key Features:

- Beautifully crafted to coordinate with seating vinyl and fabrics for a seamless, integrated look.
- Engineered to withstand harsh marine environments—fade, degradation, and crush resistant.
- Demonstrates minimal water retention compared to similar products.
- Enhanced with Microban® for built-in antimicrobial protection.
- Easy to clean - just hose off and allow to dry.
- Made in the USA

CONSTRUCTION & *Craftmanship*

AUTOMOTIVE & RESIDENTIAL STRUCTURE

The majority of our structural cross-members are 16" on center similar to home construction. This provides a better structure and one that can take on many years of use.

DRY RIDE

We include oversized spray deflectors on all our boats to make a dry ride every time.

TOUGH FRONT END

Our boats have an extremely durable front bumper that is fully welded, created from reinforced 3" extruded aluminum C-channel.

UNRIVALED WELDS

Our team uses a combination of TIG hand welding and robotic MIG welds. We are so confident in our work that we provide a Limited lifetime warranty on all our welds!

CONSISTENT PRODUCTION

Every boat we build is on the same production line and crafted with the same excellence and integrity across the board.
